

**Dr. Nurgul K. Bakirhan** obtained her BSc (2007) and MSc (2010) degrees in chemistry from the Faculty of Science, Hacettepe University, Turkey. She received PhD (2017) degree in the Faculty of Pharmacy at Ankara University. Presently, she is working as a research assistant at Chemistry Department in Hitit University. Her research interests include corrosion, conductive polymers, electrochemical impedance spectroscopy, and electrochemical investigations on active pharmaceutical compounds, validation, nanosensors, characterization and applications for electrochemical sensor development.
